

TRAINING ANNOUNCEMENT

MOTORBOAT OPERATOR INSTRUCTOR CERTIFICATION COURSE (MOICC- 502)

DOI -National Park Service is hosting a "Motorboat Operator Instructor Certification Courses" (MOICC). This course is designed to prepare persons who have previously **completed the MOCC** program to instruct others in the field of motorboat operations. Throughout the training, participants will design and instruct several presentations on a subject related to boating both in and out of the classroom. Participants will receive constructive feedback from peers and other instructors present on classroom presentations. The program will include: classroom management, effective listening, ice breaker exercises, lesson plans, use of training aids, and presentation techniques. Students successfully completing this course will be certified to instruct the DOI "Motorboat Operator Certification Course" (MOCC).

Pre-requisite: **Prior MOCC certification**

Class Size: Minimum 12 - Maximum 18

Date: September 12 - 16, 2005

Closing Date: ***August 3, 2005***

Session Length: 36 hours

Nomination NPS Personnel - Submit one-page nomination (attached) – directly to NPS - FLETC, Attn: Bruce Hasson Tel. (912) 261- 3762, Fax (912) 267-3188

Date and Location of MOCC course you attended:

1. What is your vessel operator responsibility _____

2. Please describe your boating experience _____

3. Describe any teaching/instructional experience you have _____

Nominees Signature _____ **Date** _____

Supervisor's Signature _____ **Date** _____

ADDITIONAL INFORMATION ABOUT THE MOICC PROGRAM

45 Minute Presentation – students will be pre-assigned an MOCC topic and be required to prepare a 45 minute classroom “lecture” presentation on the assigned topic. Any necessary AV equipment, such as power-point and LCD projector, flip charts, overhead will be provided for the students to enable them to present their program. If you have special needs please contact Bruce Hasson to make your request known.

An outline of your presentation will be required on the day of your presentation and should be in the attached format. Additional information pertaining to how the outline is developed will be presented during one of the instructional portions of the training.

Students will also be required to “teach” short demonstration sessions (approximately 10 minutes) on each of the four MOCC topics: Marlinspike seamanship, fire/VDS, boat maintenance, and emergency rescue.

You must be already able to operate a boat! This is not a class on “how to” but one designed to better help you be able to teach others to operate a vessel safely. So if you have not operated a vessel recently it is strongly suggested that you do so prior to attending this class.
